

Owners wanted!

The Patio Bylaw Committee is working on revising Bylaw 12, which covers what can be kept on patios. By joining, you can help shape Copperstone's future for the benefit of all owners!

The committee:

- Will be majority owners with some council representation.
- Will tour the property and meet several times.
- Will come up with a revision of Bylaw 12, to expand and clarify what can be kept on patios, to better align with current use, while respecting issues of safety.

If you would like to take part, send an email to Council Vice President Jeff Franchuk, who will be overseeing the committee's work at **jdf2742@fastmail.com**. The committee is expected to begin in late October or early November and should complete its work in about a month.
