WHAT TO EXPECT

- Mobilization will begin **Monday, July 20, 2026**.
- Construction activity will take place within the Stage 3 work area shown on the attached site plan.
- Residents should expect increased construction traffic, material movement, equipment use, elevated noise levels, and vibration and dust within and around the active work area.
- Temporary fencing, barricades, and signage will be adjusted as required to maintain safe access routes.
- Residents must not enter closed or restricted construction areas.
- Please use caution when walking near active work areas and follow directions from site personnel where applicable.
- Construction activity will take place between 8am-6pm Monday to Friday, and 9am-5pm on Saturdays when required.
- Temporary disruptions to patio access are expected.

The suspended slab membrane will be completed in stages to maintain access for emergency vehicles. While some areas will be accessible during the early course of construction, we ask that all residents be mindful of the work and follow the safety instructions below.

Pedestrian access routes have been added to the plan and will be maintained to allow access:

- To the rear pedestrian path leading to Allen St.
- Between Building 244 and the parking lot

Some slight revisions to the pedestrian routes may be required as the work progresses.

Residents are asked to follow the posted signage and use the designated access routes only.

SAFETY NOTICE

- **Do not enter** designated construction areas at any time.
- Follow all posted signage and barriers.
- Keep children and pets away from work zones.
- Use caution when entering/exiting the building during active work hours.
- Keep windows closed during active work hours.

We appreciate your cooperation and patience as we complete this necessary repair work to maintain the integrity of the building.

If you have any questions or concerns, please contact building management.

Thank you,
