IMPORTANT - NOTICE OF TEMPORARY PEDESTRIAN ACCESS

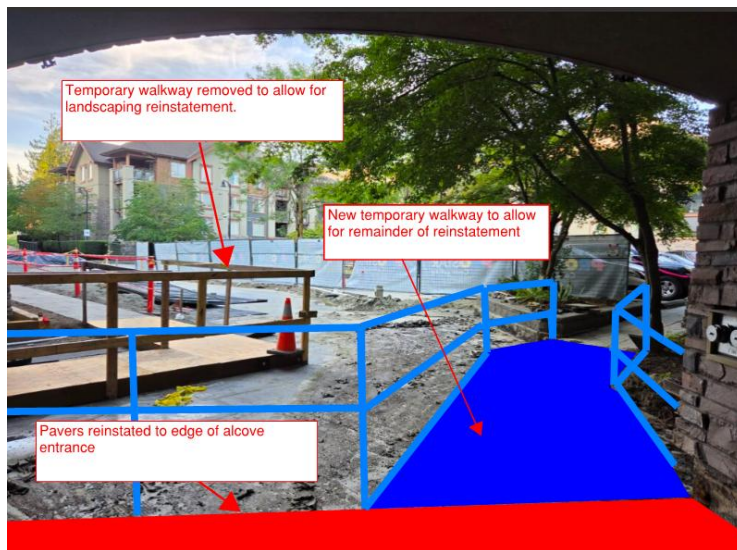

Main Entrance Access & Work Advisory –Suspended Slab Membrane Replacement

Date: July 9th, 2026

Location: Building 244 Sherbrooke St., New Westminster

Please be advised that the main entrance walkway is being reinstated as part of the ongoing podium membrane replacement project.

To facilitate the reinstatement of landscaping and hardscape elements, the existing fire access walkway will be temporarily removed while crews complete the restoration work. During this period, pedestrian traffic will be rerouted to the **right-hand side of the walkway**. Please refer to the attached site photo showing the designated access route. The main entrance will be available for all foot traffic by **July 10th 2026**.

IMPORTANT RESIDENT INFORMATION

- The temporary access route will remain open at all times.
- Please use only the designated pedestrian pathway.
- Follow all posted signage and instructions from site personnel.
- Exercise caution around active construction areas, temporary fencing, and uneven surfaces.
- Do not enter restricted work zones.

SAFETY NOTICE REMINDER

- Always stay on the designated pathways.
- Do not enter restricted or active construction areas.
- Keep children and pets away from work zones.
- Use caution when travelling through temporary access routes.
- Follow all posted signage and barriers for your safety.
- Keep windows and doors closed when work is taking place nearby, where practical.
- Do not move, remove, or bypass construction barriers or site signage.

We appreciate your cooperation and patience while this necessary work is completed. The work area will be targeted and contained as much as possible to minimize disruption to residents and building users.

If you have any questions or concerns, please contact management.

Thank you,
